Dealer & Showroom

Elegant design. Remarkable performance.

The 8510 SERIES Bi-Fold system represents timeless indoor-outdoor design. Their moveable wall system offers the most alluring features in aesthetics and performance using a unique concealed hinge design. The slim sightline and rails reduce visible hardware and maximize views with door hinges that are completely hidden to achieve a high-end and sleek look.

The 8510 SERIES provides superior thermal and structural performance using a 2mm thick thermal-break aluminum profile. The 8510 Series is perfect for areas with large openings, creating seamless transition between your indoor and outdoor space.

Compared to similar bi-fold door systems available on the market, the 8510 Series has superior quality, great value, and faster lead time.

8510 SERIES Bi-fold Door System

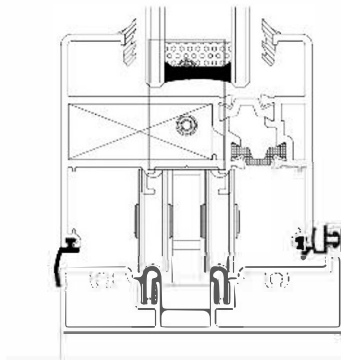

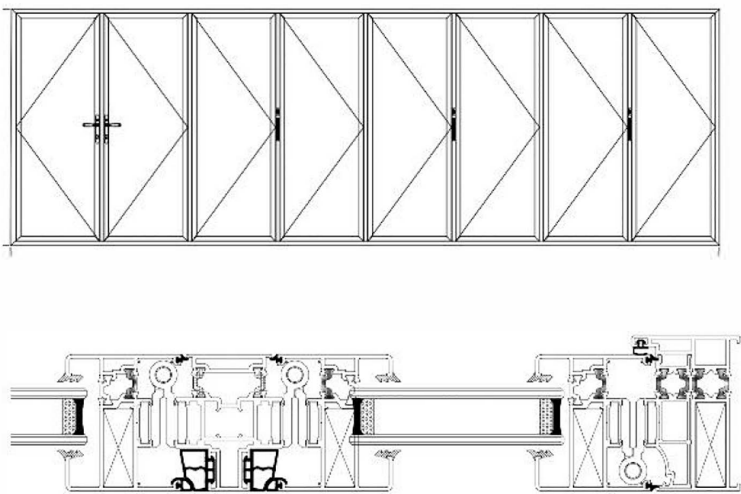

8510 Series offers exceptional performance without losing any aesthetic or function. Featuring a bottom rolling system, it eliminates pressure on the overhead beam.
